

# Alert Logic® MDR Professional

*Comprehensive protection for business-critical assets*

Addressing threats is a moving target. Monitoring around the clock requires a 24/7 Security Operation Center (SOC), but creating your own can take years. High costs and staffing challenges mean that organizations struggle to identify, prioritize and respond to threats.

Alert Logic MDR Professional protects your business-critical assets with 24/7 threat detection and incident management with a 15-minute triage SLA, MDR Concierge support, vulnerability scanning, asset visibility, and endpoint detection. Our global SOC is staffed by over 150 experts in security and information technology disciplines. They combine the Alert Logic MDR platform and purpose-built SOC tooling with decades of experience.

## WITH ALERT LOGIC MDR PROFESSIONAL, YOU RECEIVE:

### HYBRID THREAT AND RISK VISIBILITY

The Alert Logic MDR platform has been built to provide a common view on threats, vulnerabilities and configurations on all your environments. Continuous vulnerability scanning provides a view of exposure across all your cloud, hybrid, and on-premises systems. Through Alert Logic's dashboards, you can rapidly see relevant information that allows targeted response and analysis of those things that affect security posture. In-depth insights into vulnerabilities, attacker behavior, and validated security incidents are just one click away.

### EMERGING THREAT RESPONSE

Alert Logic's MDR platform gives our security experts an unparalleled view of attacker behavior across hundreds of thousands of systems. Threat researchers work with this data and intelligence gathered from the security community and industry feeds to identify emerging threats that can affect our customers.

The experts in our security operations center use threat hunting methods to search through massive data sets to identify customers who can be affected by these threats, and alert them to vulnerable systems and work with them to stop attacks before they happen. With hundreds of new vulnerabilities discovered every week, this capability, combined with detection of well-known and established threats, is critical to protect your organization.

### MDR CONCIERGE

The MDR Concierge is a single point of contact that is an expert in the delivery of Alert Logic's MDR solution and understands each customer's unique business needs to ensure the best possible service and protection.

#### ALERT LOGIC MDR PROFESSIONAL INCLUDES THE FOLLOWING:

- 24/7 Threat Management
- 15-Minute Escalation SLA
- Named MDR Concierge
- Cloud Change Monitoring
- Real-time Reporting
- Intrusion Detection
- Anti-Virus Integration
- User Behavior Anomaly Detection (UBAD)
- Container Intrusion Detection
- File Integrity Monitoring
- Web Log Analytics
